

ACIT 2620

Principles of Enterprise Networking

By: Yves Rene Shema

Objectives:

- Survey of networking devices
- Overview of common network topologies

Network Devices

Define the function and uppermost OSI layer implemented by the following devices:

- Network Interface Controller/Card
- Hub
- Bridge
- Switch

- Router
- Wireless Access Point (WAP)

Network Topologies

Name the best matching device for each of the topologies on this list:

- Bus
- Star
- Mesh
- Hybrid
